“Overall, we are pleased with this quarter's results. Our Company demonstrated 59% year-over-year growth in diluted earnings per share and achieved a 12.0% return on average common equity” said Clayton G. Deutsch, CEO. “This quarter's performance reflects year-over-year pre-tax, pre-provision income growth of 23% with positive operating leverage achieved through strong revenue growth and expense growth in line with our expectations. We have worked hard to return to a pattern of positive operating leverage following stepped up investments in staff and technology throughout 2017.”

“The bank continues to exhibit strong credit quality in the form of lower Criticized and Classified loans, and our market-linked fee businesses achieved positive net flows on a consolidated basis amid increasing market volatility. Additionally, we announced that on April 13 we successfully completed the sale of our ownership interest in Anchor.”

FOOTNOTES:

- (1) On December 20, 2017, Boston Private Financial Holdings, Inc. (the “Company”) announced an agreement, effective December 19, 2017, to sell all of its current equity interest in Anchor Capital Advisors LLC, an indirect, majority-owned subsidiary of the Company (“Anchor”), to the management team of Anchor for an upfront cash payment and a non-voting, revenue share participation interest in Anchor. On April 13, 2018, the Company completed the sale of its ownership interest in Anchor. Anchor’s results remain consolidated in the Company’s results during current and prior periods. For presentation purposes, Anchor’s AUM are excluded from current and prior period AUM amounts, but are included in the calculation of Core Fees and Income. The Company classified the assets and liabilities of Anchor as held for sale at March 31, 2018 and December 31, 2017, which are included with Other assets and Other liabilities, respectively, on the Company’s consolidated balance sheet. For regulatory purposes, the goodwill and intangible assets of Anchor will be included in consolidated calculations. See footnotes 6 and 8, below.
- (2) Total revenue is the sum of Net interest income, Total core fees and income, and Total other income.
- (3) Net income from discontinued operations consists of contingent payments net of expenses related to our divested affiliate, Westfield Capital Management Company, LLC. The Company received its final contingent payment in the first quarter of 2018 related to this affiliate.
- (4) Adjustments to net income attributable to the Company to arrive at net income attributable to the common shareholders, as presented in these tables, include decrease/ (increase) in noncontrolling interests redemption value and dividends paid on preferred stock.
- (5) When the Company has positive net income from continuing operations attributable to the common shareholders, the Company adds additional shares to basic weighted average shares outstanding to arrive at diluted weighted average shares outstanding for the diluted earnings per share calculation. These additional shares reflect the assumed exercise, conversion, or contingent issuance of dilutive securities. If the additional shares would result in anti-dilution they would be excluded from the diluted earnings per share calculation. The potential dilutive shares relate to: unexercised stock options, unvested restricted stock, and unexercised stock warrants. See Part II, Item 8. “Financial Statements and Supplementary Data - Note 16: Earnings Per Share” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017 for additional information.
- (6) The Company uses certain non-GAAP financial measures, such as: Tangible book value per share and the Tangible common equity (“TCE”) to Tangible assets (“TA”) ratio to provide information for investors to effectively analyze financial trends of ongoing business activities, and to enhance comparability with peers across the financial sector.

Reconciliations from the Company’s GAAP Total equity to Total assets ratio to the Non-GAAP TCE to TA ratio, and from GAAP Book value to Non-GAAP Tangible book value are presented below:

The Company calculates Tangible assets by adjusting Total assets to exclude Goodwill and intangible assets.
