Total noninterest expense for the first quarter of 2020 was \$60.9 million, which includes \$1.8 million of provision expense related to unfunded loan commitments recognized in Other expense. Total noninterest expense increased 4% linked quarter primarily driven by the \$1.8 million provision expense and seasonal compensation expense.

Total noninterest expense (non-GAAP) increased 3% year-over-year primarily driven by the \$1.8 million provision expense and higher Information systems expense from new initiatives.

Income Tax Expense

The Company's effective tax rate for the first quarter of 2020 was 11.2%. This rate is lower than prior quarters of 2019 primarily because net tax benefits had a more significant impact on the effective tax rate as a result of lower levels of pre-tax income in 2020 as compared to 2019.

Average total loans in the first quarter of 2020 increased 2% year-over-year, primarily driven by growth in commercial real estate and commercial and industrial loans, partially offset by a decline in residential loans.

Average total deposits in the first quarter of 2020 increased 5% year-over-year, primarily driven by an increase in money market accounts and non-interest bearing deposits, partially offset by a decline in brokered certificates of deposits.

On January 1, 2020, the Company adopted the Current Expected Credit Loss accounting standard ("CECL"). Under this standard, the allowance for credit losses reflects expected credit losses over the life of loans and incorporates macroeconomic forecasts as well as historical loss rates. The adoption of CECL resulted in a net decrease in reserves of \$19.0 million.

During the first quarter of 2020, the Company recognized a total provision for credit losses and unfunded loan commitments expense of \$18.8 million, which includes a provision for loan loss expense of \$17.0 million and \$1.8 million for unfunded loan commitments, which is recognized as Other expense within Noninterest expense. The provision expense calculated under the CECL methodology was driven by the changes in economic projections late in the first quarter of 2020 to reflect the impact of the COVID-19 pandemic. This quarter's Provision for loan loss expense of \$17.0 million compares to a provision credit of \$3.7 million in the fourth quarter of 2019 and \$1.4 million in the first quarter of 2019, both from the prior accounting basis.

Total net loans charged-off for the quarter was \$0.3 million, compared to net loans recovered of \$0.3 million in the fourth quarter of 2019 and net loans charged-off of \$0.1 million in the first quarter of 2019.

Total nonaccrual loans as of March 31, 2020 was \$24.3 million, or 35 basis points of Total loans, compared to \$16.1 million, or 23 basis points of Total loans, as of December 31, 2019, and \$12.0 million, or 17 basis points of Total loans, as of March 31, 2019.

Total criticized and classified loans as of March 31, 2020 was \$204.9 million, an increase of \$78.8 million, or 63%, linked quarter and \$63.6 million, or 45%, year-over-year.
